IRFAN GULZAR

Senior Web Architect & AI Automation Specialist — Founder, IrfanX Studio

Pakistan · Working Worldwide | irfan.aiwork@gmail.com | irfangulzar.com | github.com/irfanaiwork

SUMMARY

Senior web architect who designs, builds and grows revenue-focused web products end to end: business websites, multi-tenant SaaS platforms, and AI automation systems that research, create and publish on their own. Known for shipping complete, live products solo — from first sketch to production — with clean code and measurable results.

CORE SKILLS

React · Next.js · TypeScript · Node.js · PostgreSQL · Prisma · MongoDB · Tailwind CSS · REST APIs · AI Agents & Workflow Automation · Semantic SEO & Content Systems · WordPress · Vercel / Cloud Deployment

EXPERIENCE

Founder & Senior Web Architect
2023 — Present

IrfanX Studio

Design and build client websites and web apps worldwide: fast, SEO-structured sites that convert visitors into leads and sales. Owns the full cycle — architecture, build, launch, growth.

Product Architect & Builder
2025 — 2026

Teamvio (Scaleonic EMS)

Designed and built a complete agency-operations SaaS solo: multi-tenant workspaces, employees, clients, projects with Gantt timelines, attendance with a desktop tracker, payroll, leave, and AI executive summaries. Live in production with public signup and trials.

Automation Engineer
2024 — Present

BehindTheTrick & Client Content Systems

Built AI content engines that research keywords, generate and schedule articles and social posts, and report performance daily — running unattended for multiple web properties.

SELECTED PROJECTS

Teamvio — Agency Operations SaaS
Live multi-tenant platform for agencies: staff, clients, payroll, attendance and AI reporting in one dashboard.

DecryptMorse — Morse Code Platform
Translator with audio, interactive keyer and learning guides; fully rewritten and grown through Search Console data.

BehindTheTrick — Magic Content Network
Automated daily publishing system for a magic-reveal website and its social pages.

THORN — AI Film Production
A 50-clip AI-generated winter revenge film: full pipeline from script and character locks to episodic delivery.
